ACTIVIDAD 2: Creación de Ramas

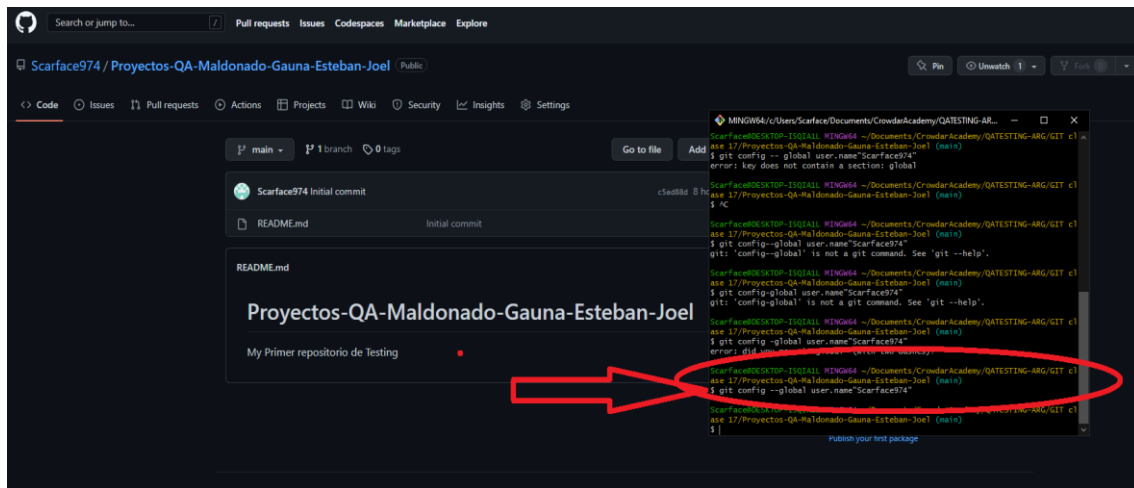

Cohorte: T05-TM

Alumno: Maldonado Gauna Esteban Joel

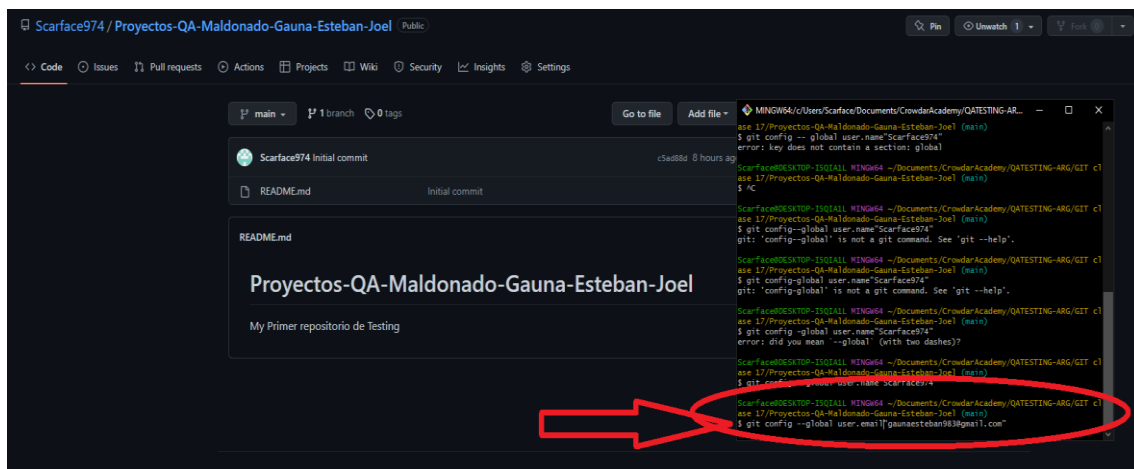

Repositorio: <https://github.com/Scarface974/Proyectos-QA-Maldonado-Gauna-Esteban-Joel.git>

Pasos:

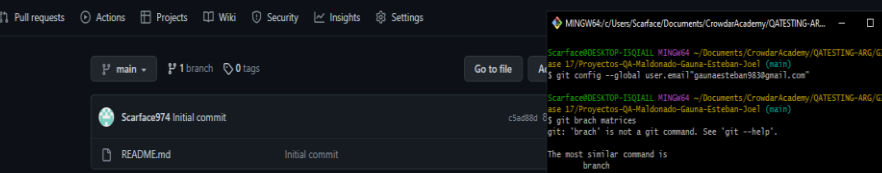

1_

2_

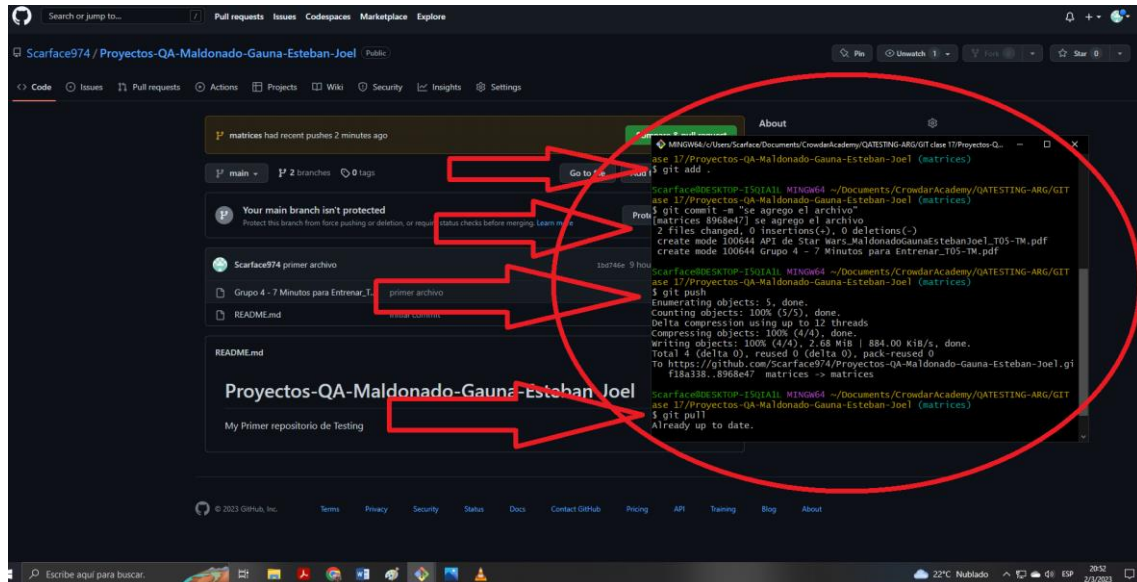

The image shows a GitHub repository page for 'Scarface974 / Proyectos-QA-Maldonado-Gauna-Esteban-Joel'. The repository is public and has 1 branch and 0 tags. The README.md file is highlighted, showing the repository name and description: 'My Primer repositorio de Testing'. A red arrow points to the repository name in the README. An inset window shows a terminal with git commands and output, including 'git config --global user.name 'Scarface974'', 'git config --global user.email 'gaunaesteban88@gmail.com'', and 'git branch'.

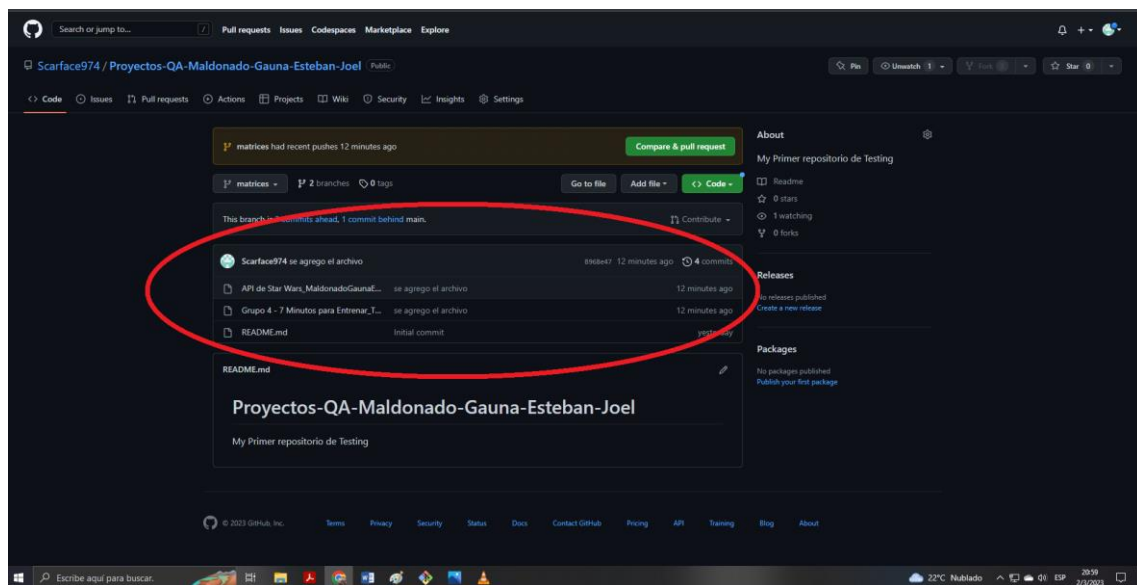

A partir de estos pasos se agregan los archivos a las correspondientes ramas “matrices” y “master”
